

Comments for Treasurer

December 20, 2018

1. Tonight I will review some financial data points for the District through the month of November. More detail is available on our website and you had some more detailed reports in your Board packet.
2. We will start by looking at our operating revenues.
 - a. These revenues include those in the General Fund, Fund 10, as well as those in the Special Education Fund, Fund 27.
 - b. The orange bars represent November's revenue, which you can see just a small sliver of on this graph. The only notable revenue we received in November was our first state special education aid payment of the year. We will quickly see how that small amount of revenue compares to our expenditures and how we had to use fund balance to cover the cash flow needs this month.
3. The next chart shows the operating expenditures by type.
 - a. The total budget for each type of expense is shown here. The orange bars show November's expenses and the markers for each major expense item illustrate the percentage of the budget spent through the same time last year for these categories.
 - b. One thing to point out here is that over 10% of our budget for salaries was expended in November. This is because November was the first month of the fiscal year in which we had three payrolls now that we are doing 26 pay dates per year. You see salaries beyond the same time last year because the first three payroll month last year was December.
4. Our third graph shows the monthly operating revenues, in blue, the monthly operating expenses, in orange, and the monthly operating surplus or deficit, in green. You can see that with only the state special education aid in revenue and nearly \$4 million in expenditures, we had a monthly deficit of over \$3 million resulting in the use of fund balance to cover that cash flow need. You can also see that it has been two months in a row where the deficit for the month has exceeded \$3 million, and we have not yet had a month this fiscal year without an operational deficit, illustrating the need for fund balance to cover our costs.
5. Finally, we have our operating balances which are shown here. As you can see, the deficit this month of nearly \$4 million decreased our operating balance to its low point of the year.
6. That concludes the treasurer's report for this month unless there are any questions.
