

## Medication Training

All medication training has two components:

- Knowledge- usually in form of webcast or power point with related quiz (required every other year)
- Skills- demonstrating skill required to administer medication (required annually)

Medication categories are listed below along with links to webcasts. After viewing the webcast or power point:

- Complete quiz
- Contact your school nurse to schedule skills test

### MEDICATION PRINCIPLES

#### Oral Medication

- [Oral Medication \(Module 1\)](#) (4:00 minutes includes quiz, please print certificate)

#### Ear Medication

- [Ear Medication \(Module 2\)](#) (3:30 minutes and includes quiz, please print certificate)

#### Eye Medication

- [Eye Medication \(Module 3\)](#) (2:45 minutes and includes quiz, please print certificate)

#### Topical Medication

- [Topical Medication \(Module 4\)](#) (3:00 minutes and includes quiz, please print certificate)

#### Seizure Medication

**Buccal** (liquid placed between the cheek and gums)

- [Buccal Training](#) (4:55 minutes)
- [Buccal Medication Quiz](#)
