

GRADE 2 Mathematics	Quarter 3 – Units 6, 7, 8 & 9 Reported	
Standards for Mathematical Practice		
Makes sense of a problem and creates a plan to solve it	Based on teacher observation during math	
Perseveres in solving problems	Based on teacher observation during math	
Attends to detail using precise math words / symbols and works carefully and accurately	Based on teacher observation during math	
Explains his/her mathematical thinking orally and shows / tells / writes why the answer makes sense	Based on teacher observation during math	
Operations and Algebraic Thinking		
Represents and solves one and two-step number stories	6c OA.1	I can solve a 1-step addition and subtraction number story and write a number model. Two fish weigh 55 pounds together. One fish weighs 20 lbs. How heavy is the other one? $55 - 20 = F$ 
	9i OA.1 MD.5 MD.6	I can plot measurements on an open number line to solve addition and subtraction number stories and write the corresponding number model using a symbol for the unknown. Maggie threw the football 34 feet. Tasha threw it 23 feet longer. How far did Tasha throw the football?  $34 + 23 = T$ $57 \text{ ft.} = T$
Automatically recalls addition basic facts with sums up on 20	See basic fact assessment data	
Represents and solves problems with equal groups	6c OA.4	I can represent multiplication problems by creating a rectangular array and write an addition number sentence to find the total. How many cans are there in three 6-packs of juice? $X \ X \ X \ X \ X \ X$ $X \ X \ X \ X \ X \ X$ $X \ X \ X \ X \ X \ X$ $6 + 6 + 6 = 18$
	7a OA.3	I can find the rule and complete <i>What's My Rule?</i> tables, including those involving doubling.

Tells and writes time to the quarter hour (using am and pm)

7b MD.7	I can tell time to the nearest quarter-hour and identify am or pm.	 <p>☀ 10:45 am</p>
8e MD.7	I can tell time to the nearest quarter-hour and identify am or pm.	 <p>1:15 pm</p>

Solves problems involving money

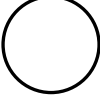

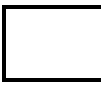

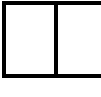

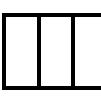

6e MD.8	I can count or draw a collection of coins.	$74 \text{¢} = \text{Q Q D D P P P P}$ or $\text{Q D D D D N P P P P}$
--------------------------	--	--

Represents and interprets data

6d MD.10	I can create a bar graph or pictograph to represent data and answer questions about the information displayed.	Complete the graph: Sally earned 5 stickers on Monday, 3 on Tuesday, 4 on Wednesday, 4 on Thursday, and 5 on Friday. 
9f MD.9	I can make a line plot showing measurement data.	Length of Paper Strips in Inches 

Geometry

Identify / represent halves, thirds and fourths of circles and rectangles
