

GRADE 1 Mathematics	Quarter 1 – Units 1-2 Reported										
Standards for Mathematical Practice											
Makes sense of a problem and creates a plan to solve it	Based on teacher observation during math										
Explains his/her mathematical thinking orally and shows / tells / writes why the answer makes sense	Based on teacher observation during math										
Operations and Algebraic Thinking											
Finds the sum of one-digit numbers equaling 10 using counters	2c OA.6	I can find the sum of one digit numbers equaling 10 using counters.  $(6 + 4 = 10)$									
Adds using a number grid or number line	2d OA.5	I can add using a number grid, number line, or math rack, if necessary. 									
Number and Operations in Base Ten											
Writes numbers 0 to 9 correctly (no reversals)	2a NBT.1	I can write the numerals 0-9. 									
Writes numbers in sequence starting at a variety of numbers	1a NBT.1	I can write dictated numerals up to 20. <p>Ask children to write: 2, 4, 9, 13, 15 etc.</p>									
	1c NBT.1	I can write numbers in sequence by counting up by 1s to 20, starting at a variety of numbers. <p>6, 7, 8, __, __, __, __</p>									
Writes number before or after a given number up to 50	2e NBT.1	I can find the number before or after a given number up to 50. <table border="1" data-bbox="1260 1633 1516 1755"> <thead> <tr> <th>Before</th> <th>Number</th> <th>After</th> </tr> </thead> <tbody> <tr> <td></td> <td>18</td> <td></td> </tr> <tr> <td></td> <td>25</td> <td></td> </tr> </tbody> </table>	Before	Number	After		18			25	
Before	Number	After									
	18										
	25										

Counts and compares sets of numbers and objects including use of tallies	1b NBT.1	I can count a set of objects and write the numeral.	☆☆☆☆☆☆☆☆ = 14 ☆☆☆☆☆☆☆☆
	1d NBT.1 MD prep	I can count and draw tally marks to at least 20.	11 = 
	1e NBT.1 MD prep	I can compare groups of pennies and tell which group has more.	 = 4  = 6 6 pennies is more than 4.
Measurement and Data			
Tells and writes time to the hour	2b MD.3	I can draw the hands on an analog clock to represent a time to the hour.	7:00 =
